### Course Objectives

The purpose of this course is to develop mathematical knowledge as a key life skill, and as a strong base for the children preparing for high school. The course begins with the learning of basic mathematics, advancing them to a level where students are able to grasp more complex concepts

### Who should attend?

- ❖ Students of the age group between 10 to 14 years
- ❖ Students who wish to have good command on Math D1 syllabus.
- ❖ Students who aim to score high in Matriculation Math.
- ❖ Students who are fascinated by the marvels of Math.
- ❖ Students who find Math mysterious and boring.

### What you'll Learn?

Week 1: Prime Numbers  
Week 2: Rational Numbers  
Week 3: Ratio, Rate, Percentage  
Week 4: Basic Algebra  
Week 5: Algebraic Manipulations  
Week 6: Basic Mensuration

### Teacher's Profile

### Qurat Ul Ain Zuhaib

Holding a prestigious BSc. (Honors) degree from UET, Lahore, Qurat Ul Ain, has been a high achiever throughout her academic journey. Having an extraordinary love for math and inspired from great mathematician Al Khwarizmi, she chose this subject to illuminate lives of young students.

With a firm grip over the subject and through her excellent teaching skills, she aims to make math not only interesting but also a passion for her students just like her own. By relating the complex mathematical concepts to everyday life, she is making marvels of math more applicable for everyone attending this course.
