## Certificate of Completion

## PROGRAM OBJECTIVES

The purpose of this course is to develop mathematical knowledge as a key life skill, and as a strong base for the children preparing for high school. The course begins with the learning of basic mathematics, advancing them to a level where students are able to grasp more complex concepts

## WHO SHOULD ATTEND?

- ❖ Students of the age group between 10 to 14
- ❖ Students who wish to have good command on British/American Math curriculum
- ❖ Students studying PYP math and wish to build strong math base for MYP
- ❖ Students who find Math mysterious and boring

## Week Wise Program

Week 1: Number theory

Week 2: Integers, decimals and fractions

Week 3: Ratio, proportion and percent

Week 4: Algebra (Expressions and Equations)

Week 5: Problem solving with algebra

Week 6: Measurements

## Teacher's Profile

Holding a prestigious BSc. (Honors) degree from University of Engineering & Technology (UET), Lahore, Qurat Ul Ain, has been a high achiever throughout her academic journey. Having an extraordinary love for math and inspired from great mathematician Al Khwarizmi, she chose this subject to illuminate lives of young students. With 7+ years of teaching experience, a firm grip over the subject and through her excellent teaching skills, she knows the hitches that disrupt the young students and aims to resolve them with the interactive sessions and in-depth point wise teaching methodology. She is making mathematics an easy subject for everyone and helping them to implement it in their daily lives.
