English/Urdu

PROGRAM OBJECTIVES

The purpose of this course is to develop mathematical knowledge as a key life skill, and as a strong base for the children preparing for high school. The course begins with the learning of basic mathematics, advancing them to a level where students are able to grasp more complex concepts

WHO SHOULD ATTEND?

- ❖ Students who wish to have good command on Math D1 syllabus.
- ❖ Students who wish to revise their basic concepts before they appear in Cambridge Examinations
- ❖ Students who find Math mysterious and boring.

Teacher's Profile

Qurat Ul Ain Zuhaib

Holding a prestigious BSc. (Honors) degree from University of Engineering & Technology (UET), Lahore, Qurat Ul Ain, has been a high achiever throughout her academic journey. Having an extraordinary love for math and inspired from great mathematician Al Khwarizmi, she chose this subject to illuminate lives of young students. With 7+ years of teaching experience, a firm grip over the subject and through her excellent teaching skills, she knows the hitches that disrupt the young students and aims to resolve them with the interactive sessions and in-depth point wise teaching methodology. She is making mathematics an easy subject for everyone and helping them to implement it in their daily lives.
